

Yeni Nesil 2000 – private French school

Yeni Nesil 2000 is a special school project that combines the essence of French culture with modernity. The project designer wanted to do a playful experiment with colours and designs attractive to young people. Forbo Flooring Turkey and the designer did a workshop together to create designs in four different colour palettes. Each classroom has four different tones of blue, green, yellow and red. The modular format of the linoleum was perfect for this school project

Architect	Kreatif Mimarlik
Location	Bahçeköy, Istanbul, Turkey
