

Hulakula entertainment center

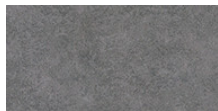

Hulakula is an entertainment center for the whole family. Sphera Element – Forbo’s new premium, homogeneous vinyl collection - is installed on the floors. Sphera floor coverings add character and style to floors across numerous applications - whether in demanding, hygienic healthcare environments, in flexible, multi-purpose modern public buildings or in education facilities and offices - where durability and colour are key.

Location	Warsaw, Poland
Date of completion	2016
Architect	Paweł Skoczylas
Installation by	Lider Bracia
Photographer	Agnieszka Bieńko-Kuczyńska
