FLOORING SYSTEMS

Creating better Bus & Coach environments across the world

For Forbo Flooring, creating better environments means a better working, living or travel environment. To achieve this, Forbo has developed an unrivalled and versatile floor covering collection that truly adds to the quality of people's lives wherever they are.

Creating better environments also means caring for the environment and its people. For more than 100 years, inspired by the world around us, Forbo Flooring has been producing floor coverings. By using state of the art production processes we minimize the impact on our environment. All our manufacturing operations are ISO 14001 certified, raw materials are used efficiently and waste is minimised and recycled wherever possible. Ongoing research and development continue alongside an active environmental policy.

Forbo Flooring, your partner of choice in Bus & Coach

Forbo Flooring Systems, addresses all the issues specifiers need to consider when looking at the floor covering needs for bus interiors.

Bus & Coach flooring

Bus and coach interiors, including the flooring, play a key role in achieving customer satisfaction. However, designing a comfortable and aesthetically pleasing interior is not easy because the bus and coach industry has to meet an array of health and safety legislation. Forbo Flooring Systems offers the widest variety of flooring solutions that meet all these regulations and also provides all the expert advice you may need when selecting floor coverings for this specialist market.

Entrance systems

Given that most vehicle interiors have to withstand heavy foot traffic, a durable flooring solution is a must. By investing in high-quality flooring – including effective entrance systems – and ensuring regular cleaning, operators can prolong the life of the vehicle flooring and keep it looking good. Coral textile entrance systems offer the ideal solution for entrance areas, as they meet all the necessary legislation while providing a stylish and effective barrier system.

Durable

The combination of precisely-developed materials and unique construction methods makes our products exceptionally durable, ensuring high appearance retention and low wear characteristics.

Solutions for Bus & Coach environments

Forbo Flooring Systems offers textile and flocked flooring for coaches and flocked flooring and safety vinyl (**up to R13**) for city buses. All these products meet international industry requirements. This includes Forbo welding rods, adhesives, sealants and installation tools.

Forbo's products are fully certified and combine durability and a wide variety of designs and colours.

You can choose from a rich diversity of designs, ranging from natural designs to the sparkingly innovative. Our products are both stylish and extremely hard-wearing. We guarantee a combination of the best products in the market supplied from one specialised manufacturer.

Forbo Flooring, experience in Bus & Coach

Entrances

Entrance flooring systems are fundamental to modern vehicle interior design. The flooring for the entrance of a city bus should offer safety with improved slip resistance (**up to R12**), whilst the entrance steps of a coach should protect the interior from dirt, dust and water. Entrance flooring systems will minimise maintenance costs by protecting the flooring and will help to maintain the appearance of the flooring throughout the lifetime of the vehicle.

flotex[®]

More than a supplier

Forbo is the only complete flooring system provider in the market offering:

- High quality flooring products
- Adhesives and mastics
- Installation training and FloorCare advice

Product overview

surestep safestep

A durable floor covering combining outstanding slip resistance (**up to R12**) with a wide range of design possibilities. The PUR Pearl surface provides superior, long-lasting appearance and performance.

Benefits

- R10, R11 and R12 in anti slip enhanced performance
- PUR Pearl lacquered surface providing easy cleaning and maintenance
- Low gloss surface for low scuff and a natural look
- Coloured durable wear layer for a long-lasting appearance
- High recycled PVC content
- Wide design variety
- Optional with or without felt backing for better adhesion properties

eternal

A highly durable floor covering with a wide range of design possibilities. The PUR Pearl surface provides superior, long-lasting appearance and performance.

Benefits

- R10 in anti slip enhanced performance
- PUR Pearl lacquered surface providing easy cleaning and maintenance
- Low gloss surface for low scuff and a natural look
- 100% transparent durable wear layer for a long-lasting appearance
- High recycled PVC content
- Wide design variety
- Optional with or without felt backing for better adhesion properties

flotex®

A unique floorcovering, combining the cleaning properties and durability of a resilient flooring with the comfort, slip resistant and acoustic properties usually associated with textiles.

Benefits

- Nylon 6.6 ensures high durability
- Hygienic
- Easy to clean; easy soil removal due to short Nylon fibres
- Bacteriostatic
- Improved indoor air quality (independent proven by Allergy UK)
- Slip resistant

coral®

The market leader in entrance systems providing an exceptionally versatile and proven range of 'clean-off' entrance system products and customizable carpets.

Benefits

- High moisture absorption
- Dirt scraping for effective clean off
- High dirt storage
- Advanced colouring & choice
- Excellent at soil hiding

step

Surestep and Safestep are Forbo's offer in slip resistant vinyl. The collection is slip enhanced with carborundum or aluminium oxide particles providing an R10 to R12 rating without affecting the clarity in design. The Wood and Stone designs look good in luxurious coaches and for creating warm and user-friendly areas in buses while ensuring slip resistance.

surestep & safestep

Surestep and Safestep provide proven design and functionality. With a wide colour palette and a highly durable slip resistance this range provides a good choice for many types of transport applications. Safestep offers slip resistance up to R12.

Surestep can optionally be provided with a felt backing to improve the adherence properties in combination with specific adhesives and sub-floors.

flotex®

A unique floor covering that looks and feels like a carpet but with straight fibres making it easy to clean. Flotex has a smooth, velour like surface that is comfortable to walk on, with excellent slip resistant properties.

flotex®

Flotex Classic designs are characterised by their subtle nuances in colour and by the design styles that deliver small scale designs and a semi plain all over look.

Flotex HD represents the unique High Definition digital print collection that creates superior texture with almost 3D-like appearance. Flotex HD, through its technology, allows for large endless pattern repeats and vivid life like colours creating a new dimension for Flotex and making the product attractive for today's transport environments.

Flotex offers consistent protection against a wide variety of bacteria thanks to Sanitized; a highly effective integral antimicrobial treatment that results in a healthier environment. Thanks to its unique construction, which helps to reduce the amount of allergens in the atmosphere, Flotex has been awarded the prestigious Allergy UK Seal of Approval.

Service products

Welding rods

Welding rods ensure high levels of hygiene because they make seams easy to clean while preventing water reaching the subfloor. Forbo offers welding rods to match to all the vinyl references.

Sealant

Helmipur SH100 is the perfect bonding solution to seal edges or seams that are hard to reach with welding rods.

Adhesives

Forbo offers a variety of suitable adhesives for flooring installations. Eurocol 640 is a very low VOC-emission adhesive with a high initial grab for vinyl, polyolefin and rubber floor covering and the eurocol 650 is a low VOC-emission, solvent-free and powerful dispersion-based contact adhesive with a strong adhesion.

Installation tools & training

Based on our experience and our continuous research we can recommend and supply a complete assortment of high-grade installation tools. These will help you to achieve a simple and professional installation of our floor coverings.

Aquajet

We recognize that sometimes a client wishes to create something totally unique, perhaps something specific to a particular project, such as signage to facilitate the restrictions and safety guidelines within the bus. Whatever may be required, our in-house design team has skills and experience to turn ideas into reality. From an initial concept, detailed drawing, or computer file, our design team prepares a flooring design that is transferred electronically to our Aquajet cutting machines. These computer-controlled machines represent state-of-the-art cutting technology and produce precision cut items accurate to a fraction of a millimeter. The pattern is inlaid and, importantly, retains all the performance characteristics of the original product. Whether it is a complete bus layout in floorcovering, a company logo, signage or thematic design, the possibilities are limitless.

For more information about Service Products contact your local Forbo Flooring office or visit our website www.forbo-flooring.com.

Solutions

Forbo offer a truly comprehensive and compliant flooring product portfolio for the bus and coach sector. Within the portfolio are entrance systems, safety floors, vinyl floors and flocked flooring as well as all adhesives, accessories and installation tools. You'll see we also offer the widest range of design and colourway options available on the market giving you a world of choice.

Forbo have years of experience with regards to material scheduling and specific logistical requirements, both for the new build and refurbishment of bus and coach vehicles. We will work closely with you to understand your exact requirements, in order to achieve the optimum service level.

Working with Forbo means;

- A sole source of supply for all your flooring requirements
- The largest and most versatile choice of floorcoverings
- A bespoke design service
- Global advice, support and cross border project management.
