

creating better environments

The Flooring Systems division offers a broad and attractive range of environmentally friendly natural linoleum, high-quality vinyl floors, entrance matting systems for cleaning and drying shoes, carpet tiles, needle felt, and Flotex, the washable high-tech textile flooring. Thanks to their excellent technical properties and attractive design, these flooring products are invariably the first choice for public buildings, department stores, hospitals, and other healthcare facilities, schools, libraries, commercial and office spaces, leisure centers, shops, hotels, restaurants, and cafeterias as well as for applications in the residential market. With a market share of about 70 percent, Forbo is the world leader in linoleum.

Flooring Systems also provides ready-made adhesives for floor covering installations, parquet flooring, and ceramic tiles, leveling compounds for the construction industry as well as liquid floors under the trade name Eurocol.

With over 100 years of industry heritage Nuway products have a strong presence across the UK. Currently manufactured out of Forbo's Telford factory, this product is transitioning to be manufactured within the Forbo Bamber Bridge, Preston site towards the end of 2026. This is a fantastic opportunity to be part of a newly formed team which will ensure the continued success of Nuway through the delivery of manufacturing excellence in the production of entrance flooring. If you have a passion to learn new skills, operate in a manual production position and demonstrate a customer focused mindset then please submit your application.

For more information relating to Nuway products please visit www.forbo-flooring.co.uk then select commercial products.
