

creating better environments

The Flooring Systems division offers a broad and attractive range of environmentally friendly natural linoleum, high-quality vinyl floors, entrance matting systems for cleaning and drying shoes, carpet tiles, needle felt, and Flotex, the washable high-tech textile flooring. Thanks to their excellent technical properties and attractive design, these flooring products are invariably the first choice for public buildings, department stores, hospitals, and other healthcare facilities, schools, libraries, commercial and office spaces, leisure centers, shops, hotels, restaurants, and cafeterias as well as for applications in the residential market. With a market share of about 70 percent, Forbo is the world leader in linoleum.

Flooring Systems also provides ready-made adhesives for floor covering installations, parquet flooring, and ceramic tiles, leveling compounds for the construction industry as well as liquid floors under the trade name Eurocol.

Exciting New Engineering Apprenticeship Opportunity

Join a global, market-leading commercial flooring manufacturer with over 150 years of industry experience, renowned for producing high-quality, sustainable products and trusted on iconic projects worldwide.

We are investing in our workforce of the future and have an Engineering Apprenticeship opportunity available:

A great opportunity to earn while you learn, gain real-world experience, and build the foundations of a successful career. You'll work alongside experienced professionals, receive structured training, and gain hands-on experience from day one. No previous work experience is needed—just a positive attitude, willingness to learn, and a strong work ethic.

Engineering Apprentice

creating better environments
